Enhance your knowledge
of future technologies

Sustainable development in Paris

"n+i" Rendez-vous

10 days
in France
June 17-26, 2020

A cocktail of culture and engineering

21ST CENTURY Environment and Energy: The challenge by France

provisional program

Objective

To offer students a unique opportunity to discover France and to get a life-changing experience in science and technology applied to sustainable development.

Cultural activities

- Cruise on river Seine
- Eiffel Tower
- Montmartre
- Champs Elysées
- Notre-Dame
- Montparnasse tower
- Visit of Versailles castle

Scientific activities

Enhance your knowledge of future technologies to preserve the environment

- Château de Versailles: behind fountains show
- Isséane, energy recovery of domestic waste
- AirParif, the Paris region observatory for air quality
- Palais de la découverte
- The Paris Climate Agency, operational agency to fight against climate change and to help achieve energy transition for Paris
- Conference on urban transportation
- Eau de Paris, environmental management practices for water distribution
- EVESA, public lighting of Paris management
- A swimming pool heated by datacenters
- Start-up Pivert, Biogis center (Compiègne), biomass conversion
- Pavillon de Manse (Chantilly), historical, scientific, technical and environmental site
- Conference: overview of renewable energies or will the Cleantech save the planet?
- Musée des arts et métiers, museum of technological innovation

Network n+i

The Network "n+i", a non for profit association, is a consortium of French top engineering institutions (Grandes Ecoles d'Ingénieurs).

These schools have elected to combine their international cooperation operations in order to offer a range of services to help students in their study abroad projects.

400 study programs

1 single application

50 engineering institutes

Discover and appreciate not only the French culture but also get an insight into the French know-how in science and technology

Apply now !

Registration form Rendez-Vous "n+i" Sustainable development June 17 – 26, 2020 Paris, France

Deadline for application: February 15th 2020

Please read carefully and sign at the bottom of EACH page the participant agreement below
and send the form to rendez-vous@nplusi.com

Veillez lire attentivement et signer au bas de CHAQUE page de ce document et renvoyez-le à l'adresse contact@nplusi.com.
