

What is Network "n+i"?

***Network "n+i"** is a France based consortium which links together 38 French higher education institutions in all areas of Science, Technology and engineering and which offer more than 160 training programs allowing access to Master degrees.*

Network "n+i" represents more than 35 000 students and 250 research laboratories in engineering spread over 35 cities and 13 regions of France. It is also currently the largest engineering educational network in France that strives to help science and engineering students and young engineers from foreign institutions wishing to pursue their Masters or PhD education in France.

*Network "n+i" has developed over the last 25 years a **unique web platform** www.nplusi.com allowing French and foreign students, through a unique application, to apply to a broad variety of "Study Abroad" programs.*

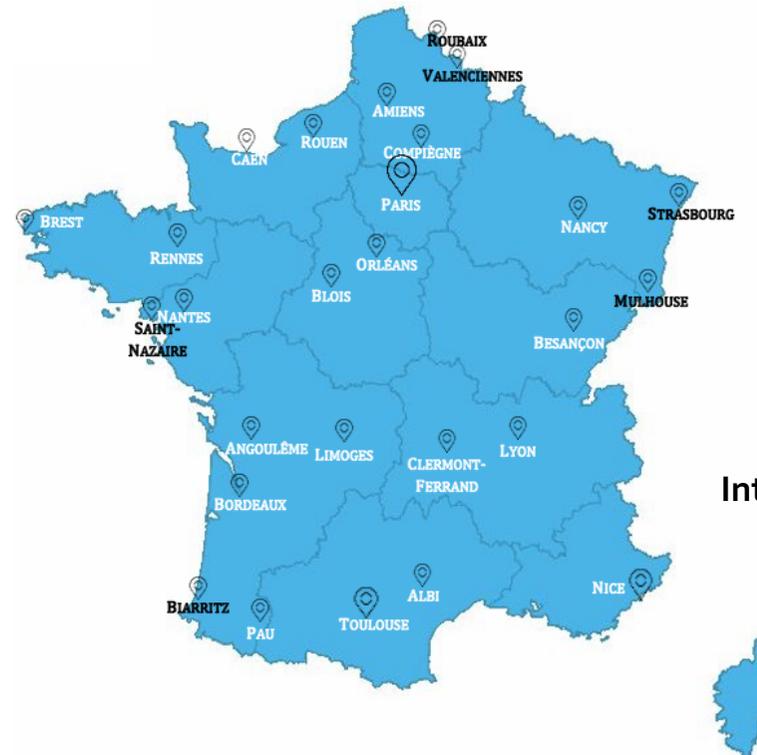

*The consortium "n+i" is also offering a set of "**Path to success Packages**" including welcome, language support and student coaching to accompany foreign students as they realize their "study abroad" project in France.*

Members of Network "n+i"

**38 "Higher Education Institutions" connected to highly ranked academic centers.
35 cities in France.**
